Hi Helen,

The latest date would be mid-May 2013. We would need to know an estimated cost or estimated hours too.

Jayne

I talked to Jayne Carlin and she said there may be an opportunity for EPA contractor's time to be available for the modeling work. It would be good to send her a brief description of the work you are proposing and the timeline. It looks like the most likely funding would need to be used by May 2012. I have a call in to Walter Nelson at the Newport Lab about estuary modeling. Will let you know what I hear on that.

I also asked Jayne about the forestry call on November 8. It is a follow up to our earlier CZARA call on October 6th. Because Dave Powers could not be on that call the 11/8 call was set up to discuss CZARA settlement requirements relating to forestry.
